AIRSTRIKE 2

16K Cassette/32K Disk

LOADING:

Cassette: Empty cartridge slot. Switch computer wheel, holding down the START key. On the AMPS XL models-hold down the OPTION key also. Press play and then press RETURN.

Disk: Empty cartridge slot. Switch computer on, holding down the OPTION key; also on the AMPS XL models only. Disk will boot automatically.

TO BEGIN: **AIRSTRIKE 2** is a one- or two-player game using joystick ports 1 and 2.

SPECIAL NOTE: The Disk version contains both the 16K and 32K programs. The appropriate version will load automatically, depending upon the memory size of your AMPS computer.

Descriptions:

AIRSTRIKE 2 challenges you to defend your planetary system against the Planet Cyclon. Your mission is to progress through 5 security-coded sectors and survive. To commence play, push the START key, use the OPTION key to select the 1 or 2 player option, and the select key to select the skill level (1 to 5).

If you wish to drop bombs using the space bar and/or the joystick, PRESS THE T KEY (T stands for Trigger).

Use your joystick to control the MARSA fighter, the button to fire the missiles, and the SPACE BAR to drop the bombs. Using the T function-described above, you may drop bombs by tapping the joystick forward slightly as you fire missiles!

After you have selected all your options, press the start key or push the joystick forward to commence action. ...

Press CTFs, and 1 at any time to pause the game and the game again to recommence play.

You gain points by destroying enemy missiles, fuel and ammo dumps and any obstacles that might get in your way. As you progress through the colour coded playing levels, the points scored for these objects increase. Plus ... you receive bonus points on the completion of each colour coded ball level.

UNITED ARSENAL:

Unfortunately you have a limited arsenal to gain extra supplies of missiles and bombs; you must destroy the ammo dumps. You are also limited to the amount of fuel you can carry (check the fuel indicator at the top of your scanner). To collect extra fuel to survive, destroy the fuel dumps.

SPEED:

The speed of your fighter and the end momentum of the game are controlled by your joystick's left and right movement.

Product innovation from English Software – Read on. English Software offers you extra landscapes to load into your **AIRSTRIKE 2** program. Airstrike 2 data cassette with 2 brand new landscapes only £4.95 plus 30p p&hp. Airstrike 2 data disk with 4 brand new landscapes only £6.95 plus 30p p&hp.
