### ORIENTATION

The River of No Return. The river is divided into sections, with a bridge at the end of each section. You will encounter islands, narrow channels, bays and lots of enemy air, land and water crafts moving in to block your path. Also, the farther down the river you fly, the more harrowing things the

The current bridge number is displayed on-screen and is an indication of your progress up the river. It is updated whenever a bridge is destroyed. Advanced pilots may start the game at later bridges, bypassing the easier sections of the river. Here are your outlons:

GAME VARIATION CHART		
NUMBER	STARTING BRIDGE	NUMBER
1	1	ONE
2	1	TWO
3	8	ONE
4	5	TWO
5	20	ONE
6	20	TWO
7	80	ONE
8	50	TWO

Your Jet Fighter will bank to the left or right when you move the Joyatick left or right. To accelerate, push it forward. To slow down, pull it back Press the red button to fire missiles (hold for continuous fire).

Your Squadron. You'll begin with four jets (one active, three on reserve). With each 10,000-point increase, you're given an additional jet. You lose a jet if it runs out of fuel, or touches anything except a fuel depot or the brown river bank. River Raid\*ends when all of your jets are lost.

Land Tanks appear on the road at the first bridge. Beginning with Bridge 7, they'll dodge up to the shoreline and commence shooting. You can fly right through their line of fire, but avoid the explosions they cause on the river.

### "HOW TO RAID THE RIVER ... "

#### Tips from Carol Shaw.

flying tale

Carol is a first class game designer and a computer science scholar. She's also a serious bicyclist, and can often be found cycling through the wilds of her native California coast. Her recent hits include Happy Trails" for Intellivistion, and River Raid. for the Atari\* 2600.

6.6 The River of No Return holds many special challenges and dangers for would be River Raiders. You'll not only have to know your assault jet, but you'll need to have a good idea of your basic flight plan before you start.

By knowing the river, pinpointing areas with the highest concentration of enemy, and the most fuel dopots, you'll have a much better chance of surviving. Since the river is in sections, try jotting down notes for each important section as flight aids.

Fuel is also a critical factor. When you're far up the river, fuel is soarce. Hence, flying to the next fuel depot should be your top priority.

When you become really skilled, you'll find you can actually blow

when you become really skined, you find you can account the up a first depot right in the middle of refueling. That way, you can gain the points and some fuel at the same time.

gain the points and some fuel at the same time.

Remember that a bridge with a tank on it is worth the most points. Practice timing your bridge approaches so you can fire

while a tank is crossing.

If you make it back to Allied territory and need some R and R, kick back and drop me a note. I'm always up for a high-
