## **To the Editors**

Congratulations on wanting to be more creative!

The additional clip art provided in this volume will add personality to your text and capture the spirit of your stories. You can use it in conjunction with The Newsroom Clip Art disk, Clip Art Collection Volumes 2 and 3, giving you over 2600 pieces of clip art to choose from!

Many new categories have been added such as religious symbols, office scenes, buildings, tools, famous places and people. There are also more athletes, animals and people doing a great variety of things. As usual, there is a nice balance between realistic art and cartoonish characters.

Enjoy this additional clip art and be certain to send in your warranty card! Without it, Springboard cannot replace defective disks or keep you informed of new products.

## **Backup diskettes**

CLIP ART COLLECTION VOLUME 1 is copy protected. PLEASE DO NOT ATTEMPT TO DUPLICATE THE DISKETTE, IT MAY BECOME DAMAGED. You may order a backup copy of this program from Springboard.

## **General Instructions**

The Clip Art Collection™ Volume 1 is a two-sided disk which offers you over 600 exciting new pieces of clip art to choose from. You will find that it works just like the Clip Art disk that came with The Newsroom.

There are approximately 300 pieces of clip art on each side of the disk.

Clip Art A (side 1)

Clip Art B (side 2)

To review all available clip art and where to find it on disk, see the Clip Art Overview at the back of this book.

Special note for IBM users: You will not have to flip the Clip Art disk because the IBM PC/PC jr. is equipped with dual headed drives.

## **What to do with the Clip Art Collection disk**

Clip art can be accessed in The Newsroom's BANNER or PHOTO LAB work areas. Once you are in either work area, insert a clip art disk into the disk drive and press any key or button. You can insert the original Clip Art disk that came with The Newsroom or this new Clip Art Collection disk. They both work the same way.

Next, select the picture icon  at the top of the left side of the work area. A list of clip art page names will appear that correspond to the clip art pages in your instruction book. Move the selector bar up and down until it is on the name of the clip art page you wish to load.

Select that name by pressing the selector button or key. That page of clip art will be displayed.

If you wish to load a clip art page from a different clip art disk or disk side, do the following:

1. Remove the present clip art disk from your drive.
2. Insert the different clip art disk or side that you want.
3. Move the selector bar to the NEW DISK option and press the selector button or key. The clip art page names from the new disk will be displayed on the screen.

If you wish to return to the work area without any clip art, move the selector bar to the CANCEL option and press the selector button or key.

Once the page of clip art is displayed, move the hand cursor onto the piece you wish to select and press the selector button or key. You will be returned to the work area with that piece of clip art on your cursor.

## Tips on using Clip Art

### TIP 1:

Your imagination is the limit when using this clip art. Here are some helpful tips to get you going:

You can flip the clip art by selecting the flip icon  and then selecting the piece you want flipped.

### TIP 2:

Try combining different pieces of art.

You can add a frame if you like by selecting **BOX** from the Graphic Tools Window.

Experiment with adding tone by selecting a **FILL PATTERN** from the Graphic Tools Window.

**TIP 3:**

Reverse a piece of clip art out of of a black background.  
Here are two different ways to do it.

Drop a piece of clip art down and then draw  
A.) a box around it or

Color the entire box black  
by going to the Graphic  
Tools Window and select-  
ing the Black fill pattern.  
Use this fill and the larg-  
est PEN ■ to completely  
blacken out the image.

Next, select the HAND  
from the Graphic Tools  
Window. Move the HAND  
onto the black area and  
pick up the hidden piece  
of art and move it off  
the screen, leaving an  
inversed image.

B.) leave it alone.

Go to the Graphic Tools  
Window and select the  
largest PEN ■. Comple-  
tely blacken over the  
piece of art. Whatever  
black pattern you draw  
will remain there later.

Next, select the HAND  
from the Graphic Tools  
Window. Move the HAND  
onto the black area and  
pick up the hidden piece  
of art and move it off  
the screen, leaving an  
inversed image.

**TIP 4:**

Add a caption to your art.

First, select your piece of clip art.

Next, go to the Graphic Tools Window and select a typeface (the small fonts usually work best as captions). Then position the cursor where you want the caption to start and press the selector button or key. Type in the caption.

Now where did I  
hide my keys?

Draw a bubble around the caption by going to the Graphic Tools Window and using either the BOX or CIRCLE options or DRAW your own free hand bubble.

Add some small bubbles leading up to the caption bubble by going to the Graphic Tools Window and selecting CIRCLES.

**TIP 5:**

Many of the clip art pages are created with interchangeable parts. Take a look at FUN 1, FUN 2, FUN 3, FUN 4 and KIDS 3.

Each of these pages has been designed to allow you to mix and match the pieces.

For example, here are three different scenes created from FUN 1:

Here are three scenes created from FUN 4:

Here are three scenes created from KIDS 3.

Get the idea? Have fun experimenting!

### TIP 6:

A variety of borders are offered. Remember that you can use the flip icon to flip over any corner piece and combine it with any horizontal or vertical pieces to create the perfect border for your specific needs.

Helpful Hint: When creating a border we suggest that you start at the corners and work towards the center. On the occasions where you create a border and the center lines don't meet you could really get creative and add an ornament to the center. For example, you could make a circle and put your initial in it. You could actually use any of the Graphic Tools and draw your own ornamental design, or the easiest way to go would be to drop in another piece of clip art as your ornament.

### TIP 7:

On the panel of clip art labeled TIME 2 you will find a variety of clocks without hands on them. We did this intentionally so that you could personalize them to the exact time you want. Go to the Graphic Tools Window and select the LINES option. Start the line at the center of the clock and draw the hour hand. Then, start at the center again and draw the minute hand. You can easily use the Magnifying Glass to draw an arrow at the end of the hands.

### TIP 8:

You can choose to "silhouette" a piece of clip art. First, select a piece of clip art that has a distinct or recognizable shape. Next, go to the Graphic Tools Window and select the Black fill. Use this to fill the interior of the clip art. If any unblackened areas still appear, go to the Magnifying Glass and use it for the detail work.
