Dear TLB?

I have just seen Maggie 1 and I cannot say I am impressed! The fact is, I am astounded. Congratulations on absolutely everything.

Anyway, let's cut the small talk and get down to the reason I am writing this letter to you.

I am a poor guy (no joke) who has just been given the go-ahead by the Enterprise allowance scheme, to start my own PD Library. I know, there are hundreds of them. But I am a dedicated STer, in fact I am, (as far as I can make out) the ONLY dedicated STer in the Highlands and Islands area. That's why I am starting this PD library. To cater especially for the local people who don't even know that PD exists.

So, get to the point. I hear you say. I reckon you have guessed by now. I am writing to you in the hope that you will agree to allow me to peddle your wares!!!

Joking aside, I would be pleased if you would get in touch with me to give me your blessing and support. I am not a fly-by-night cowboy, I am a seriously dedicated STer and I need all the support I can get.

I am also a very good reviewer and I have enclosed an example of my work for you to peruse, if you should feel enclined. I also write these reviews for the disk/mag "Buzzbox" which you are perhaps aware of (and if not Why not?) and I would be willing(nay, honoured) to write for you should you require such a service.

Please let me know of your decision on the matters I have raised at your earliest convenience.

I thank you for taking the time to read this.

Yours Sincerely
