Yo, Lost Boys!

Yeah! This is me again, the Ultimate Gfa Froggy!
How are you doing, boys? Fine? Great! I hope
you managed to rest during these holidays... I
personally had a break but I (we) didn't forget
you -

OVERLANDERS

Here are some articles for MAGGIE 3.0. You'll find:

- 3 interviews of some OVR members: FURYO, HUMUNGUS & ZIGGY.
- Another "GFA programming" article along with some sourcecode and pics (Please do not forget to include them on the disk).
- A "WANTED OVR" article which tries to explain the problems we've got with some other crews (Hi, NEXT!).

Thank you for including all this stuff in MAGGIE 3.0.

We hope we'll stay good friends and you won't listen to all stupid rumours about us. MANIKIN was quite severe with us in his OEL II review and the CEBIT'90.DAT file but we hope you understood we do not pretend to be the best or to beat TCB or TLB. We do what we like, hoping that people will like our work. We didn't try to insinuate that the OEL II was better than the MINDBOMB, we let the ST-freaks decide which demo they prefer. We don't like competition but we like friendship and frankness.

Yo, Sammy Joe
(& the others!)

Yes, it's me again, the crazy froggy! Here are
some more articles for MAGGIE. Well, I suppose
it's too late 'cos the MAGGIE 3.0 is probably
ready yet... But if you ever have some free

OVERLANDERS

space on the disk, I think you should be able to fill it with these articles. An exclusive interview of the PENDORAGONS (our best french friends), another interview of STAN (yes, we're numerous and we like interviews!) and a BIG article about the 2nd OVR convention (I'm just back from it!). If you cannot include them now, please put 'em in the MAGGIE 4.0. Thanks!

By the way, something else: I think we're going to be late for our EUROPEAN DEMOS (we want it to be clean & careful). I think we all will have to

wait 'till October...

What about the next TCB & TCB demos? I'm

quite eager to see them...

OK. I'll stop right now 'coz I want my letter to

arrive quickly.

'Hope to read you soon,

May the Mame protect you!

Friendly,

AP
