

Typical 4KB low-cost cartridge for K.S.O. Turbo 2000 or Turbo 2000F systems

EPROM size is 4KB, and that's why cartridge repeats two times in \$A000-\$BFFF area:
 - \$A000-\$AFFF (main image) and then \$B000-\$BFFF (mirror copy)

- cartridge disconnects automatically after a time determined by the by the value of the R1, R2, C1.
